## A LITTLE ABOUT ME

I am a specialist in website layout since 2022. I have experience in creating adaptive, cross-browser web pages using modern HTML, CSS and JavaScript technologies. Mastery of Gulp, jQuery, Sass and Figma tools allows me to effectively develop and optimise web projects. I am passionate about video games, which helps me to better understand user needs and create an attractive and user-friendly interface.

## OBJECTIVE:

Seeking a position as a website layout specialist to apply my skills and experience to create high quality web products.

## SKILLS:

Technical: HTML, CSS, JavaScript, Gulp, jQuery, Sass, Figma, Git

Soft skills: Attention to detail, ability to work in a team, time management

## PROJECTS:

Portfolio Project

Creating a personal portfolio using HTML, CSS, JavaScript and Figma.

Adaptive design and cross-browser compatibility.
